| 1  |          |           |            |                | / /           |           |
| 2  |          |           |            |                | / /           |           |
| 3  |          |           |            |                | / /           |           |
| 4  |          |           |            |                | / /           |           |
| 5  |          |           |            |                | / /           |           |
| 6  |          |           |            |                | / /           |           |
| 7  |          |           |            |                | / /           |           |
| 8  |          |           |            |                | / /           |           |
| 9  |          |           |            |                | / /           |           |
| 10 |          |           |            |                | / /           |           |
| 11 |          |           |            |                | / /           |           |
| 12 |          |           |            |                | / /           |           |
| 13 |          |           |            |                | / /           |           |
| 14 |          |           |            |                | / /           |           |
| 15 |          |           |            |                | / /           |           |
| 16 |          |           |            |                | / /           |           |
| 17 |          |           |            |                | / /           |           |
| 18 |          |           |            |                | / /           |           |

We will not "freeze" rosters. However, it is the team manager's responsibility to keep the roster on file up to date.
